

Lesson 04

The Junk Orchestra

“The world sends us garbage, we send back
music.” This was written on the back of a
concert ticket I was given. The musical group
was called “The Junk Orchestra.” They played
instruments made entirely out of garbage.
I could not imagine what kind of sound these
instruments would make, so I was eager to
find out.

Before the concert, I thought that the instruments
might sound strange. After a few minutes,
a group of young people began to walk on the
stage. The first thing I noticed was their
instruments: a cello made out of a shiny oil tank,
a violin made with forks, and a flute made with a
water pipe and buttons.

The concert began with a girl playing Bach's
